

# Audio\_Visual\_xbook3\_030

B.B. Huria

## Across

- 1 A measure of the electrical resistance of a material. (3)
- 2 'MO' in 'MODEM'. (9)
- 5 The US governmental agency that controls and makes all policy for the use of broadcast airwaves. (3)
- 7 D' in 'LED'. (5)
- 9 A cable that does not meet CMP or CL2P flame test requirements. (3-6)
- 10 A basic de-interlacing process used in scalers for video content that contains no movement. This

type of processing results in a sharp image with crisp details but will cause images to tear when motion occurs. (6,4)

- 13 'P' in 'DHCP' stands for \_\_\_\_\_. (8)
- 15 First 'D' in 'DMD'. (6)
- 16 In video, it is a means of controlling the timing of an event with respect to other events. (4)
- 17 A video problem in which picture information is missing, giving the appearance of specks in the image. (5,4)

## Down

- 1 No longer on (3)
- 2 'M' in 'FM'. (10)
- 3 A connector with rounded corners and angled ends, taking on the shape of the letter D. Commonly used in computers and video, most D connectors have two rows of pins. (1-9)
- 4 A rear-projection video display. (5)
- 6 \_\_\_\_ colour - Rainbow artifacts in an encoded video picture. (5)
- 8 H' in 'HDTV'. (4)
- 11 G' in 'AWG', the standard

measurement for wire conductor diameter. (5)

- 12 Audio amplifiers are typically described by \_\_\_\_\_. There are four primary \_\_\_\_es used in A/V system designs: A, B, A/B, and D. (5)
- 13 In matrix switchers, it refers to all of the inputs and outputs of one signal. (5)
- 14 L' in 'ALC' stands for \_\_\_\_\_. (5)
