

# Quality\_Management\_15x15\_2008-10-18

B.B. Huria

## Across

- 1 DFMEA stands for Design Failure Mode and \_\_\_\_\_ Analysis. (7)
- 3 An imperfection. (6)
- 7 Document evidencing results achieved or activities performed. (6)
- 9 Batch. (3)
- 10 PPM stands for Parts \_\_\_\_\_ Million. (3)
- 11 Action according to certain accepted standards. (10)
- 13 Process of mimicking the behaviour of one system with a different system. (10)
- 16 Span encompassing the lowest and the highest values in a data set. (5)
- 17 MTBF stands for Mean \_\_\_\_\_ Between Failures. (4)
- 19 A position on a scale of intensity or quality. (5)
- 21 International organization for standards. (3)
- 22 ASTM stands for American \_\_\_\_\_ for Testing and Materials. (7)
- 23 Quality \_\_\_\_\_ - Overall & e\_press intentions and direction of an organization as regards quality. (6)

## Down

- 2 MTBF stands for Mean time between \_\_\_\_\_. (8)
- 3 The ability of a product to resist wear & tear through continual prolonged use. (10)
- 4 FTA stands for Fault \_\_\_\_\_ Analysis. (4)
- 5 AQL stands for \_\_\_\_\_ Quality level. (10)
- 6 CAI stands for \_\_\_\_\_ Aided Inspection. (8)
- 8 Former acronym of American Society for Quality (ASQ). (4)
- 11 Established ability to apply skills. (10)
- 12 Acronym for European Standard. (2)
- 14 ANSI stands for American \_\_\_\_\_ Standards Institute. (8)
- 15 AQL stands for Acceptable \_\_\_\_\_ level. (7)
- 18 DFMEA stands for Design Failure \_\_\_\_\_ and Effects Analysis. (4)
- 20 A National Standards Institute of USA. (4)
