

Cancer - 21 x 21 - 210204

Across

- 1 The source of lymph and lymphocytes. (5,4)
- 3 Checking for disease when there are no symptoms. (9)
- 5 Cancerous. (9)
- 7 A mass of excess tissue. (6)
- 8 MRI stands for Magnetic resonance Imaging. (7)
- 10 Removal of a sample of tissue for microscopic examination to check for cancer cells. (6)
- 14 Invisible rays that are part of the energy that comes from the sun that can burn the skin and cause skin cancer. (11)
- 17 The fatty network of connective tissue that fills the cavities of bones. (6)
- 18 A steroid hormone produced in the ovary; prepares and maintains the uterus for pregnancy. (12)
- 21 The waste matter discharged in a bowel movement; feces. (5)
- 23 A type of biological response modifier, that can improve the body's natural response to disease. (10)
- 24 WBC stands for White Blood Cells. (5)
- 26 An operation. (7)
- 27 The spread of cancer from one part of the body to another. (10)
- 28 The basic units of heredity found in all cells of the body. (5)
- 29 MRI stands for Magnetic resonance Imaging. (8)
- 30 Poisons produced by certain animals, plants, or bacteria. (6)
- 31 XXXXXXXXXXXX Scanning - An

Down

- 1 A thin coagulable fluid containing white blood cells and chyle; is conveyed to the blood stream by lymphatic vessels. (5)
- 2 Cancer of the cells that produce pigment in the skin; usually begins in a mole. (8)
- 3 The extent of a cancer, especially whether the disease has spread from the original site to other parts of the body. (5)
- 4 High-energy radiation used in low doses to diagnose disease or injury, and in high doses to treat cancer. (1-3)
- 6 A group or layer of cells that together perform a specific function. (6)
- 9 An x-ray of the breast. (9)
- 11 A doctor who identifies diseases by studying cells and tissues under a microscope. (11)
- 12 Disappearance of the signs and symptoms of cancer. (9)
- 13 A thin plastic tube that provides a pathway for drugs, nutrients, or blood products into the body. (8)
- 15 T' in 'CT-Scan' stands for XXXXXXXX. (10)
- 16 Biological therapy. (13)
- 19 XXXXXXXX Therapy - Treatment with high-energy rays to kill or damage cancer cells. (9)
- 20 A female hormone. (8)
- 22 A doctor who specializes in treating cancer. (10)
- 24 Cells that help the body fight infection and disease. (3)
- 25 A procedure in which you can look inside the body through a lighted tube called an XXXXXXXX. (9)
- 27 The use of nuclear magnetic resonance of protons to produce proton density images. (3)
