

# Biology\_15x15\_2006-08-13

B.B. Huria

## Across

- 1 Put into a position that will restore a normal state. (3)
- 3 Mass of tiny floating organisms. (8)
- 6 Radiation with wave lengths shorter than light but longer than X rays. (2)
- 7 In a condition of biological rest or suspended animation. (11)
- 9 A type of dyskinesia characterised by rapid dance-like movements. (6)
- 10 Any bundle of nerve fibers running to various organs and tissues of the body. (6)
- 11 An artificial taxonomic category for organisms of which the true relationships are obscure. (4,6)
- 18 That's what 'E' in 'ENT' stands for. (3)
- 19 The genetic material in the cell that regulates protein production. (3)
- 20 Taxonomic group whose members can interbreed. (7)
- 21 Reproductive characteristics. (3)
- 24 A taxonomic group containing one or more genera. (6)
- 25 Female reproductive cells. (4)
- 26 Relating to or produced by or containing bacilli. (8)

## Down

- 1 Carbohydrate substance. (6)
- 2 Normal rigid state of fullness of a cell or blood vessel or capillary. (6)
- 4 Not artificial or imitation. (7)
- 5 A malignant tumor or growth caused when cells multiply uncontrollably, destroying healthy tissue. (6)
- 7 Blood clotting disorder resulting in extensive bleeding from even minor injuries. (11)
- 8 Aqueous humor is found in this organ of the body. (3)
- 12 Mammals of which the females have a pouch containing the teats where the young are fed and carried. (9)
- 13 Science of the human structure. (7)
- 14 Tending to occur among members of a family usually by heredity. (9)
- 15 Single cell organism whose metabolism converts the sugars contained in the malt into alcohol and carbon dioxide. (5)
- 16 Permanently attached to a substrate; not free to move about. (7)
- 17 The male reproductive cell. (5)
- 22 Normal complement of sex chromosomes in a female. (2)
- 23 Water vertebrate with gills. (4)
