

Consumer_electronics_13x13_2008-10-10

B.B. Huria

Across

- 1 The ratio between the brightest and darkest parts of a picture. (8)
- 3 The lower range of audio frequencies, up to approximately 500 Hz (4)
- 6 CAS stands for conditional ____ system (6)
- 8 Auto ____ Control - Automatically adjusts the lens opening for best videotaping results under varying light conditions. (4)
- 9 Electronic artifacts designed to be played with (4)
- 10 A group of nearly parallel lines of electromagnetic radiation (8,4)

- 15 BER stands for Bit ____ Rate (5)

- 16 'D' in 'CCD' stands for ____ (6)
- 17 An increase in signal amplitude from one point in a circuit or system to another, often from system input to output (4)
- 18 In audio, an electrical signal that is a replica of, or similar to, the original signal (6)
- 19 ADSL stands for asymmetrical Digital Subscriber ____ (4)
- 20 Camera sensor which translates the image into an electronic signal (3)
- 21 It is the code the author uses to tell browsers how to display text or images

for the most part (3)

Down

- 1 CCD stands for ____ Coupled Device (7)
- 2 A receiver capable of picking up amplitude modulation stereo broadcasts (2,6)
- 4 CAS stands for conditional access ____ (6)
- 5 A memory device consisting of a flat disk covered with a magnetic coating on which information is stored (4)
- 7 The source of the electron beam in a picture tube (8,3)
- 11 That's what BB stands for (8)
- 12 Jacks on the back of

an audio or video component, which are used to send audio from the component to another device (5,3)

- 13 Kitchen appliance used for baking or roasting (4)
- 14 A large musical keyboard instrument (5)
- 18 An electronic component that converts incoming analog signals into digital information (3)
